

Date: REV 06.2023

From: Whirl-Pak®

Subject: Whirl-Pak® Thio-Bag® Shelf-Life Guidance

To our valued customers, Whirl-Pak® is providing this memo to communicate the typical minimum shelf-life recommended for our Whirl-Pak Thio-Bag® products. The shelf-life given here is only meant as a guidance for the recommended usage following the product's date of manufacture.

After the minimum shelf-life, the customer is to evaluate the validity of the product to confirm that it maintains ability to confirm with the specification and suitability of its intended use. Improper storage of the product is not recommended. Damaged, opened or improperly stored products will not apply to this guidance. Crushed tablets **are** viable if the entire dosage remains in the bag.

All Whirl-Pak Thio-Bag products are recommended to be stored at ambient conditions, 20-25°C (68-77°F) with humidity below 75 percent. **Maintaining these conditions, the Whirl-Pak Thio-Bag products have a recommended *shelf-life of 5 years from the date of manufacture.***

A complete description and list of part numbers for Whirl-Pak Thio-Bag products are included on our website, please visit our website at: www.whirl-pak.com/product/whirl-pak-thio-sterilized-bags/.
