## Whirl-Pak Product Change Notification – Prop 65 Labeling Update

Dear Valued Distribution Partner,

We are writing to inform you of an important update regarding Proposition 65 (Prop 65) labeling for Whirl-Pak® products.

Following additional material review and testing, Prop 65 labeling will now apply **only** to Whirl-Pak® products that utilize a **flat wire closure component**. This requirement is due to the presence of nickel within the flat wire material.

As part of this update, you will notice the following changes:

### What is Changing

- Prop 65 warnings will **no longer be printed on all cartons**
- Prop 65 warnings will now be applied **only to carton of applicable products**
- For applicable items, a **Prop 65 label will be affixed to the carton**
  - **WARNING:** This product can expose you to nickel, which is known to the State of California to cause cancer and/or reproductive harm. For more information: [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov)

### Products Affected

- Only Whirl-Pak® products that contain **flat wire closures** will carry the Prop 65 label
- A detailed list of affected item numbers is included below for your reference
  - B01339, B01341, B01445, B01446, B01447, B01449, B01450, B01451, B01542, B01488, B01525, B01527, B01601, B01603

### What is Not Changing

- Product performance, specifications, and quality remain unchanged
- There are no changes to materials beyond labeling clarification
- All non-flat wire products are not subject to Prop 65 labeling

This update is intended to improve accuracy and alignment with current Prop 65 requirements, while simplifying labeling for products not subject to this regulation.

If you have any questions, please don't hesitate to contact Reier Groven, Global Product Manager, [rgroven@whirl-pak.com](mailto:rgroven@whirl-pak.com).

Sincerely,

A handwritten signature in blue ink that reads "Kristin Buckau".
